

Ordinal number of class start date, end date, and last two digits of current year.

**Countermeasures Comprehensive Course Syllabus**  
**COURSE DATE**  
**COURSE LOCATION**  
**COURSE INSTRUCTORS**

**Monday**

**0800-0900** Welcome/registration/administrative/security procedures, facility requirements, overview of schedule and homework.

**0900-1400** Back to Basics (Block #1 Intro Back to Basics slideshow)

- Opening discussions (0900-1000)
- Basic skills (1000-1100)
- Lunch (1100-1200)
- Basic skills continued (1200-1300)
- Sensor use (1300-1330)
- CM exercise (1330-1400)

Throughout the week, students need to log their performance with each case study. They should write down features, where and when and write final decision for each case reviewed. Step 1 View, Step 2 Review and Discuss

**1400-1600** Physiological Features (Block # 2) (Place on Butcher block paper) or White Board)

**Homework:** Go on-line to [WWW.antipolygraph.org](http://WWW.antipolygraph.org) and read “The Lie behind the Lie Detector,” Chapter 4 entitled, Polygraph Countermeasures (It is listed on the homepage); You may also consider reviewing the DoDPI Pamphlet entitled, PDD Analysis II-Course #503. [Consider asking how many have computers or access to computers. I’m trying to cut down on the amount of paperwork that we have to carry in luggage]

**Tuesday**

**0800-0830** Homework Discussion - Cm Quiz – Review Physiological Features

**0830-0930** CM Exercise Slideshow (block # 3) – Handout pamphlet for laboratory exercise

**0930-1100** Practicum I - Laboratory Exercise (Follow the pamphlet – record and copy the exam at the end)

**1100-1200** **Lunch**

**1200-1600** **Laboratory Exercise continued + review of test data (Reinforce Physiological Features – Discuss operational issues)**

**Homework:** Go on-line to [www.antipolygraph.org](http://www.antipolygraph.org) and read the Federal Psychophysiological Detection of Deception Examiner's Handbook, Chapter 18 entitled Countermeasures.

### **Wednesday**

---
